

# LED Uplight Panel Lighting

LIGHTING FOR **IMPACT**

## Light up your sales — *literally* — with our new LED Uplight Panels

Lighting for Impact's new LED uplight panels help you simply and affordably transform the way your customers see, shop, and spend in your store.

Highlight your special products individually by shelf, or as a complete section/end-cap — your choice! Our LED panels come in standard shelf widths/depths, making it easy to add to existing gondola shelving. Panels snap into place on top of the shelving to secure the panel and maximize impact. Additional sizes can be ordered by request.

Turn the ordinary shopping experience into bright spots of new sales. Learn more about our LED uplight panel lighting today!
